

Financial Controller

The Company:

Advance your career with Turbo Power Systems Limited, a green tech global company with local roots leading the change towards net-zero greenhouse gas emissions. With over 40 years' experience, a team of highly skilled engineers and a track record in creating world-class power electronics and high-speed machine' solutions, you will have limitless opportunities to challenge yourself and grow in your professional career. TPS provides bespoke motors and generators rated from a few kW to a few MW and operating from 10,000rpm to 180,000rpm. We design specialised magnetic bearing motors to run submerged in exotic gasses for HVAC, Natural Gas, Super Critical CO₂, and Hydrogen; placing us at the forefront of new technologies as they develop.

The Role:

Reporting directly to the Chief Financial Officer, you will develop and maintain all necessary controls, systems and processes to ensure the efficient and effective management of the Company's finances and compliance with statutory requirement. The main responsibilities of this role are as follows:

- Direct and control finance staff to ensure that they are appropriately motivated and trained and carry out their responsibilities to the required standard.
- Monitor and maintain the Company's cash levels within operational limits, including the production of detailed cashflow reports.
- Produce accurate and timely financial information about the Company's financial status and performance to enable decisions to be taken relating to the company's financial strength and security.
- Produce all necessary statements and reports to enable the accurate measurement of cash flow, profit and loss, stock, and debtors etc.
- Carry out any necessary internal audit reviews and monitor the financial effectiveness of systems and controls, and act as the main point of contact with external auditors and provide them with all required information.
- Recommend any changes necessary to improve the Company's financial performance of systems and controls.
- Produce company tax returns, working with the external tax specialist to file these within filing deadlines, including the R and D tax credit position.
- Liaise with grant authorities, providing required reports and analysis to ensure the Company meets the requirements of any awarded grant, including arranging any audits that may be required.
- Review the company's statutory accounts and ensure they are filed within allowed timeframes.

Although able to see the bigger picture commercially, with a practical and pragmatic, non-bureaucratic approach, you will pay attention to detail, and define rigorous standards of service.

Qualifications:

Ideally the successful candidate is likely to have Chartered Institute of Management Accountants (CIMA) qualification or be studying towards it, or alternatively extensive experience in a similar role, demonstrable knowledge of manufacturing processes and a project led engineering business and knowledge of the enterprise resource planning ERP system.

How to Apply:

Interested candidates should write enclosing a covering letter, including current remuneration and C.V. and send it to nhall@turbopowersystems.com or TPS, 1 Queens Park, Queensway North, T.V.T.E., Gateshead. NE11 0QD.

Closing date: Friday 10th March 2023.
